
	LiGHT Grant Application 2024	
	2024 LiGHT Grant Cover Form and Guidelines	

Name of individual, group or organization: New Life Christian School

Contact name(s): Linda Glenn, Director

Address: 1621 S 350 E, Bluffton IN 46714

Phone number: (260)824-4660 Email Address: gbcsecretary@adamswells.com

Name of the program as it would appear on the grant award: New Life Christian School

Describe who the grant award will serve and approximate number affected: The children and their families as well as the staff of NLCS (60+)

Dollar amount requested: \$1630⁰⁰

Would the program be offered if only a *partial* grant from LiGHT is made? NA

Summary paragraph of the grant award requested: Although the staff of NLCS are certified in CPR and First Aid, having accessibility to an AED device would improve the chances of survival in the event of cardiac arrest.

Complete all requested items below:

- 1) This Cover Form
- 2) Project Narrative, 1-5 pages typed, including:
 - What need in the Community will this program address? Give evidence to substantiate your request. (i.e., data, letters of recommendation, etc.)
 - What do you want to do?
 - What is your timeline?
 - What results do you expect?
 - If partnering with other organizations, please list.
 - Describe the program and tell how the funds from the grant will be used based on your budget
 - Signature page: To include endorsement of the project or program by the requesting agency's Board of Directors. This page must include a signature of the Board president.
- 3) Detailed budget

PROJECT NARRATIVE

LIGHT Grant Application 2024

An AED (Automated External Defibrillator) would greatly benefit the children (and adults) in our facility should an emergency occur where defibrillation would become necessary. For every one minute delay in defibrillation, the survival rate may decrease by 7% - 10%. An AED combined with CPR provides the best chance of saving a life. The American Heart Association recommends that an AED be used every time CPR is given.

New Life Christian School staff are trained in CPR as well as formally trained in the use of an AED. These devices accurately detect when or when not to deliver a shock. The AED uses voice prompts guiding the rescuer through the correct steps to take in aiding the victim. AEDs are placed in public places throughout our community, and it is our goal in providing quality care for our students and their families to have accessibility to an AED.

If we are the recipient of the LIGHT Grant, upon receiving the funds we would immediately purchase a Philips Heartstart Onsite School and Community AED Kit. As stated above, enough cannot be said about the

lifesaving advantages of an AED. We would waste no time in installing the AED in a very conspicuous place within the building of New Life Christian School.

Respectfully submitted by New Life Christian School, 1621 S 350 E,
Bluffton, Indiana, 46714. (260-824-4660)

Features

Wall Cabinet w/Wall Sign

Our Philips Heartstart Onsite School & Community Value Package features everything we offer with our Basic AED Package (philips-heartstart-onsite-aed-defibrillator-p) and more. This Philips AED package also includes an AED wall cabinet and an AED wall sign to properly and visibly store your Philips AED safely in view for all potential rescuers to see and identify. Choose either a basic cabinet (no alarm), alarm, or alarm & strobe.

Suitable for Indoor Use

This Philips HeartStart OnSite AED School & Community Value Package is perfect for any indoor application including Schools, Churches, Offices, or other buildings. The School & Community Value Package also includes both adult and pediatric electrode pads cartridges.

Philips, the worldwide leader in automated external defibrillators (AEDs), designed the HeartStart OnSite Defibrillator for the ordinary person in the extraordinary moment. The first and only AED available without a prescription, the OnSite is designed to be the easiest to set up and use and the most reliable defibrillator available. Their innovative technology, based on extensive research and user feedback, has produced a defibrillator so easy to use that you can potentially save the life of a coworker, friend, or anyone else stricken with sudden cardiac arrest. Weighing just 3.3 lbs/1.5 kg, the HeartStart OnSite Defibrillator is small and lightweight. Using clear, calm voice instructions, it guides you through each step of defibrillation, including CPR coaching. Integrated SMART Pads placed on the victim's bare skin sense and adapt the defibrillator's instructions to your actions every step of the way. HeartStart OnSite includes highly proven Philips technologies for heart rhythm assessment (SMART Analysis) and defibrillation energy delivery (SMART Biphasic). And like all HeartStart Defibrillators, it can be used to treat infants and children as well as adults.

Philips Healthcare, founded in 1891, ranks as one of the world's largest electronics companies, and the company market AEDs throughout the world. The United States accounts for about a third of the company's sales, but the value of life-saving AED equipment goes beyond numbers and statistics.

Philips and Heartstart proudly offer you the most affordable model at a special price, including lifetime notification and tracking support. Sudden cardiac arrest leads in the cause of death in adults, and treatment delays of 4 to 5 minutes decrease survival chances by almost 40 percent.
